Unique opportunity to sponsor onsite competition targeting geolocation issues in your business

An onsite competition driven by industrial challenges on indoor/urban positioning and navigation issues will be organized. By defining the challenge, assisting the competition logistics, supplying and delivering the award, industrial sponsors gain unique opportunities:

- to solve remaining issues in your GEO-IOT, Location Based Services or other geolocation applications
- interact and test potential novel solution providers
- communicate about your company (services, products...)
- increase visibility during the conference and also in regional and international press
